

Jonathan's
LANDING

EVENTS WITH JONATHAN

We're helping people with disabilities experience the joy of live events.

For individuals with disabilities, the lights, the crowds, and the noise of live events can often create sensory and logistical barriers to attending. At Jonathan's Landing, we believe everyone should have the access and the support to experience the wonderful thrill of live sporting and entertainment events.

Events With Jonathan™ leverages the generosity of businesses and organizations who gift their corporate suites so that those sensory and logistical barriers can be broken down enabling individuals with disabilities and their families the opportunity to enjoy an amazing experience. These suites are available to organizations across Central Florida that serve both children and adults with a range of physical and hidden disabilities including Down syndrome, cerebral palsy, autism, physical and visual impairments, and veterans with PTSD.

2023 - 2024 Calendar

We're excited to launch the Events With Jonathan™ 2023 - 2024 calendar season in partnership with the Orlando Magic.

We'll have suites available at 25 NBA basketball events at the Amway Center in downtown Orlando this season, with dates forthcoming.

If you are an organization that serves people with disabilities or impairments, please reach out to join us this season.

Making it accessible, affordable, and easy for families.

In order to make these events affordable and accessible, there is no cost to the organizations, participants, or their families aside from parking. To provide maximum support, sensory kits are provided at every event in the suite for those requiring additional support. Food and drinks are provided by Jonathan's Landing Foundation with special menus specifically catered in partnership with Levy and the Orlando Magic to address food sensitivities.

Events With Jonathan™ was conceived by successful serial entrepreneur, Jason Eichenholz after seeing how his son Jonathan, a young adult with autism, responded so positively to the excitement of a loud arena football game in the more intimate microenvironment of a corporate suite. The larger cushioned chairs, smaller crowds and quiet hallways—plus easy access to restrooms, snacks and food with no lines—made Jonathan comfortable enough to stay for an entire game.

Jason had frequently attended events in suites and noticed a significant number of suites that were often “dark,” and wondered whether there might be an opportunity to help more people like his son while giving corporate partners an opportunity to make more effective and philanthropic use of their suites. Events With Jonathan was the answer, and a pilot program serving 150 participants across 10 different organizations was launched with the Orlando Magic during the 2022 season. Based on the demonstrated impact to organizations and families, that 10-game pilot program is now expanding into a 25-game partnership with the Orlando Magic this season with Michelle DeVos joining the team to serve as Chair of Events With Jonathan.

“The possibility and promise of what Events with Jonathan can do for so many in our community to attend events they couldn’t access before is immense.”
